

Project Demo Planning

Date	29 September 2026
Team ID	SWTID-2026-2087
Project Name	POCKET SMART AI
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction and problem	Introduce pocket smart AI, team and fixed-budget planning problem.	1.5	Monish.B
2	Solution overview	Explain workflow, architecture and how the system converts requirement into a plan	1.5	Jagadeeshwaran.s
3	User access demo	Show registration/ login or application entry flow and validation	1	Shannon Cedric jacob
4	Budget planning demo	Enter budget and purchase requirements, show validation and allocation processing	2	Preethika.B
5	Recommendation & dashboard	Show generated plan, recommendation-oriented output and dashboard/result view	2	Naresh.S
6	Q&A / closing	Answer questions, summarise benefits, limitations and future enhancements	2	Monish.B

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Present the problem: fixed budget must be distributed across multiple connected requirements.
2	Solution Overview	Explain Pocket Smart AI workflow from user input through allocation and recommendation output.
3	Live Feature Demonstration	Demonstrate access, budget/requirement input, validation, processing and dashboard/result output.
4	Q&A Session	Answer evaluator questions and close with benefits, limitations and future enhancements.
